Cautionary note

The following materials are for presentation purposes only. They accompany the discussions held during Rogers Communications Inc.’s (Rogers) investor conference call on July 23, 2019. These materials should be read in conjunction with the disclosure documents referenced below.

Certain statements made in this presentation, including, but not limited to, statements relating to expected future events, financial and operating results, guidance, objectives, plans, strategic priorities and other statements that are not historical facts, are forward-looking. By their nature, forward-looking statements require Rogers’ management to make assumptions and predictions and are subject to inherent risks and uncertainties, thus there is risk that the forward-looking statements will not prove to be accurate. Readers are cautioned not to place undue reliance on forward-looking statements as a number of factors could cause actual future results and events to differ materially from that expressed in the forward-looking statements. Accordingly, our comments are subject to the disclaimer and qualified by the assumptions and risk factors referred to in Rogers’ 2018 Annual Report and Rogers’ Second Quarter 2019 MD&A (which was issued on July 23, 2019), as filed with securities regulators at sedar.com and sec.gov, and also available at investors.rogers.com. The forward-looking statements made in this presentation and discussion describe our expectations as of today and, accordingly, are subject to change going forward. Except as required by law, Rogers disclaims any intention or obligation to update or revise forward-looking statements.

This presentation includes non-GAAP measures, including adjusted EBITDA, adjusted EBITDA margin, adjusted net income, adjusted diluted EPS, adjusted net debt, debt leverage ratio (adjusted net debt / 12-months trailing adjusted EBITDA), and free cash flow. Descriptions of these measures and why they are used can be found in the disclosure documents referenced above. Effective January 1, 2019, we adopted the new accounting standard, IFRS 16, Leases (IFRS 16), that is discussed in “Critical Accounting Policies and Estimates” in Rogers’ Second Quarter 2019 MD&A. The adoption of IFRS 16 had a significant effect on our reported results. Due to our selected transition method, we have not restated our prior year comparatives.

This presentation discusses certain key performance indicators used by Rogers, including total service revenue (total revenue excluding equipment revenue in Wireless and Cable), subscriber counts, subscriber churn, blended ARPU, and blended ABPU. Descriptions of these indicators can be found in the disclosure documents referenced above.
Focus on Wireless fundamentals

In millions of dollars, except percentages and per share amounts

- Strong adjusted EBITDA growth driven by successful cost management and efficiencies
- Continue to invest in 4.5G and ready our wireless network for 5G
- Cable capex intensity improved due to lower customer premise equipment investments.
- Cable infrastructure continuously upgraded
- Repurchased shares worth $50 million in Q2. Over $1 billion expected to be returned through dividends and share repurchases in 2019
Financial flexibility

3.0x Debt Leverage Ratio

- Cash provided by operating activities of $1.1 billion in the second quarter of 2019
- Acquisition of 600 MHz spectrum impacted debt leverage ratio by 0.3x
- Investment-grade balance sheet remains healthy with total available liquidity of $2.6 billion
- IFRS 16 implementation impacted debt leverage ratio by 0.2x
- IFRS 16 implementation impacted debt leverage ratio by 0.2x

- 0.2x IFRS 16 impact
- 2.5x 2018 year end
- 0.3x 600MHz acquisition
- 3.0x Q2’19
